

We Pack Epiphytic Bryophytes aka . . .
(often retailed as Oregon Sphagnum Moss)

Oregon Green Moss

We pack in 25 lb bales; 25 bales per pallet. We also pack in 10lb & 5lb & 2lb bales and in 1 lb polybags

Moss — nonvascular, succulent green plants with no roots grows in clumps and sheets. Water absorbs directly through its leaves and stores in its cellular tissue. We evaluate Quality by the length of the strands, how fluffy are the strands and clean of debris; the higher the quality the greater the water holding capacity. Florists and

A natural for houseplant soil conditioning, lining for hanging baskets, filling wire forms for topiaries, decorative soil and foam covering, mulching, soil-free growing, transplanting and more.

Nurseries have discovered ways to put these properties to good use to keep potted plants moist and cool.

We are **Willamette Evergreen Inc.** based in Molalla Oregon. Established in 1985 to produce Christmas evergreen products like wreaths, garlands, centerpieces, kissing balls, and more. We also now make Wheat Wreaths and pack Wheat stalk bunches for Autumn. We branched out to package other forest crops - Oregon Green Moss and Decorative Tree Branches. We also work closely with our Christmas tree farm company, Oregon Evergreen for potted and cut trees.

We enjoy putting the properties of nature to good use.
